The first paper of the morning session was read by Miss B. A. Asher of Fort Saskatchewan on "Progressive Steps in the Teaching of Writing." Miss Asher described very clearly her method of teaching the subject, especially in the junior standards. Position, movement and the principle of letter-formation were fully dealt with. The subject was treated in a very systematic manner and showed careful preparation.

An interesting discussion followed in which Messrs. Monaghan, Martin, Inspector McCall, Bartlett, Hutton and Thompson participated. Mr. Hutton declared against the vertical system of writing.

Mr. W. E. Hay, of Strathcona, is a very able paper, dealt with the subject of Commercial Arithmetic. He pointed out that the first stage in the teaching of Commercial Arith-

metics was to give a clear idea of the units and their relations. This result should be obtained by using the concrete, and not by the memorization of tables. Reduction, ascending and descending, should be introduced in the same way. The compound rules should follow naturally from the simple rules. In the teaching of trade discount, insurance, commission and interest, the teacher and pupils should carry on the actual transactions in the school-room. In this way school-work is made interesting and greater mental discipline is given. Mr. Hay emphasized the importance of clear statements by the pupils. His paper was an excellent one and was listened to with much pleasure and profit. Messrs. McCall, Bartlett, Ellis, and Martin, took part in the discussion that followed.

At the opening of the afternoon session the convention was favored with a short address from Mr. A. C. Rutherford, in which he expressed his sympathy with and interest in the teacher's work.

Then followed an able and eloquent address on "English in the Schools," by Mr. W. Rea, B.A., Mr. Rea pointed out that 75 per cent of pupils do not get beyond the public school and a large majority earn their living by manual work. It was not the function of schools to give technical training, but they could train the mind and heart. The progress of the human race depended on intellectual pursuits. Most of mankind had considerable leisure and it was important that this should be spent in intellectual improvement, in reading.

The reading should be of the best class, not transient fiction, but books of permanency and profit. The schools should develop a taste for our English classics, for it will not be acquired afterwards. The paper dealt also with rhetoric and essay-writing in the schools. The speaker strongly opposed skeleton-analysis of literature selections, and the formal teaching of literature.

The paper was discussed by Messrs. McCall, Bartlett and Jenkins. Miss McRae took up the subject of school offenses. The paper dealt with the treatment of such offenses as irregularity, lack of punctuality, neglect of home-work, copying, lying, impure language, etc. The paper discussed individual difficulties in a most practical and helpful manner.

One of the most interesting papers of the session was "An Hour Outdoors," by Miss Brown of Agriculture.

Miss Brown described an hour spent by her with her pupils in visiting the birds' homes in the neighborhood. The nests of the mallard, crow, partridge, robin, diver and ground-bird were examined. The pupils took great interest in this excursion and were required to describe their observations. The result of such work is that pupils lose the inclination to kill and destroy the animal life around them.

The last paper of the afternoon session was read by Mr. J. L. O'Grady on "The Function and Operation of Rural School Grounds." Mr. O'Grady dealt with the benefits derived from the planting of trees, and the cultivation of plants in school grounds. In this way pupils acquired habits of observation, and a sympathetic interest in nature.

Pupils should have their own plots to look after. The work in Agriculture could be well illustrated in the plots of the school ground.

The convention is being continued today.

VISITORS ENTERTAINED

The reception tendered the visiting teachers to the convention, by the teachers of the Edmonton public schools was held in the assembly room of the McKay Avenue school last night and was a most unequalled success.

The large assembly room on the top floor of the splendid new school was prettily decorated with flags, bunting, evergreens and flowers, while numerous Chinese lanterns and candles assisted the electric lights in creating a scene of brilliancy and splendor such as is seldom attained by other than professional decorators.

Little tables decorated with flowers were scattered throughout the hall at which gathered coteries of gaily

clad teachers between the promenades.

Clark's Orchestra provided the music, which was very much enjoyed by the large and distinguished assembly. Among those present were Lieutenant-Governor Bulyea, Premier Rutherford, D. S. McKenzie, Deputy Minister of Education, Mayor and Mrs. McKinnon, Inspector and Mrs. McCall, Aldermen J. B. Boyle and W. A. Griesbach, Mr. Alex. Taylor and Miss Taylor, St. George and Mrs. Bell.

Lieut.-Gov. Bulyea was asked to make an address. Having been absent from the city when the program was being prepared he had not been asked to take part and so was entirely unprepared to give an address. Speaking briefly he expressed pleasure at being able to attend a gathering of this kind, which reflected great credit on its promoters. He expressed himself as greatly pleased with northern Alberta, and said that one of the most striking features of this country to the American settlers was the splendid educational institutions and buildings. They felt safe in coming to a country that attended to the education of its children. He thanked the committee for the pleasure he experienced in being present and hoped they would have many meetings of the kind.

Mayor McKenzie, in opening his address said he was a speaker who was once asked to address a meeting and had no subject assigned to him; he asked the audience "what shall I speak about?" and a voice from the rear of the hall prompted "about a minute." He expressed great pleasure in welcoming the convention to the city, the first convention to meet in the new city in the new province, the fairest of the Federated Provinces of Canada. He hoped that the greatest satisfaction to the people of this great country, everything being in a state of transition, the opportunities when we may shrink are great, but the responsibilities could not be shirked. A country school teacher and these responsibilities in a great measure because of the time he had to think. Eight years ago Mr. McKenzie said he knew every school teacher north of Red Deer while today he did not even know all the teachers in the city.

Premier Rutherford said the Mayor had intimated that he had assumed great responsibilities. Well, he admitted it; he had taken the portfolio of Minister of Education from the Mayor and since he had assumed the responsibilities he had received plenty of applications to share it with him from all provinces from Prince Edward Island to the Pacific coast.

The reason that Ontario journals were so kind of saying that affairs in Alberta were at a crisis was that we had taken the cream of their teachers to teach the Alberta boys. As Minister of Education and would not see the Department of Education starved. The day had arrived when an additional encouragement should be given to high schools and steps would soon be taken to establish a Provincial University, which he expected the Dominion Government would also aid. The Normal School would be inaugurated immediately after the new year. Mr. Bryan, formerly inspector of the schools at Calgary, was to have charge, and he was at present in the east getting the latest ideas in up-to-date methods. In making appointments, he said the policy of the Government was to appoint Alberta residents in all cases provided they could qualify. He was grateful to have the opportunity of addressing the teachers and looked forward with pleasure to future meetings.

An excellent musical program was rendered. Mr. Jackson sang, "Queen of the Earth," his fine tenor voice perfectly controlled, showing to great advantage. Miss McCall, recited "The Voice of the Wind," which was so much enjoyed that the encore was insisted on. Mr. J. T. Richardson gave a violin solo "Air Valse" (Debussy), his masterful interpretation of which, pleased all. Miss Jessie Potter and Mrs. Bennett in their respective songs, "The Caravan" and "A Japanese Love Song," provided a real treat, that will be kindly remembered by all present. Mr. Walter Clark's cornet solo was, as always, an enjoyable number.

The evening's enjoyment was brought to a close by the singing of the National Anthem, after a vote of thanks had been tendered the Edmonton teachers for the evening's pleasure.

ADVOCATES OF REMEDIAL LEGISLATION

Mr. Griesbach's plan for dealing with the school question is to repeal the present ordinances and allow the minorities to appeal for remedial legislation. The candidate for Edmonton thus puts himself in line with the needs and plans of his party in Federal affairs by declaring his willingness to create the conditions which would result in a demand for remedial legislation.

So far, therefore, as the campaign in Edmonton is concerned the issue on the school question is clear. The Attorney-General stands for the maintenance and development of the present school system along the lines of absolute state control and purely non-sectarian teaching; the opposition candidate for the policy of creating conditions which would force upon the Federal Government the necessity of deciding how many and of what character should be the minority schools in this Province.

While the leader of the Alberta Conservatives is two wily and too wary to be led into any such definite statement of his policy on the school question, his utterances are quite as capable of this as of any other construction and until Mr. Bennett chooses to inform the people of the Province what his policy is we shall feel justified in supposing that the Conservative candidate for Edmonton has inadvertently given away the purpose of the party to which he belongs.

It is quite understandable why Alberta Conservatives should desire to create the conditions which would force the question of remedial legislation on the Federal Government. When the autonomy bills were before the Federal House it became speedily apparent that the course of the Government had prevented the opposition taking a politically profitable stand on the school question. But for years the Federal opposition had centred their hopes on the school question of the North-West as an opportunity for party success. Their tariff policy had proved ineffective, their railway policy a fiasco. They remained only the hope that in the creation of the new Provinces, conditions should be created which would antagonize the public mind and enable the opposition to gain through the misfortunes of their opponents what they could not accomplish by their own efforts.

But the decision of the Government to continue the system which the people of the West had created blasted this hope so far as the Federal Conservatives were concerned. Divided among themselves, confronted with the eminent fairness and reasonableness of the settlement, and confounded by the verdicts in Edmonton, London and Oxford, they gave up the hope of years and relegated to the Western Conservatives the duty of creating such conditions as would work to the disadvantage of the Federal Government and in consequence forward the interests of the Conservative party in Federal affairs.

It is this accomplishment of this design which the Conservative candidate in Edmonton announces as his policy and which has not been denied by his leader as the set purpose of the party which he leads. Upon them is placed the desperate duty of leading a forlorn hope against the autonomy bills for the salvation of the Federal opposition. That they are responding to the needs of their party is evidenced by the admission of Mr. Griesbach and the equivocation of Mr. Bennett.

THIRD CANDIDATE IN MACLEOD

Duncan Macleod, registrar and at one time postmaster of Macleod, has entered the contest in Macleod as an independent candidate.

A strong effort is being made to patch up the difficulty among the Conservatives in the Finches Creek division. There is a possibility of John Kemmis, the regularly nominated Conservative candidate pulling out and Charles Kettes, the independent Conservative candidate facing the electors as the only Conservative. Both Mr. Kemmis and Mr. Kettes are opposed to the School Classes in the Conservative platform.

AFTER THE POACHERS

Harry Conant, American consul at Windsor, has received a copy of instructions sent out from the Treasury Department at Washington to the Cleveland consul, regarding the American poaching in Canadian waters. The communication authorizes the American consul to apprehend the poachers, seize both cargo and vessel, and institute proceedings of confiscation.

To show how the American Government regards the poaching, the letter has a paragraph to the effect that relations between the States and Canada are of the most cordial character, and it is regrettable that any of our people will violate both the laws of their own country and those of Canada.

The Department also stands ready to furnish revenue cutters to stop the poaching.

The United States revenue cutter Morrill left Detroit, having on board Collector of Customs Leach, of Cleveland, who will take a hand in the work of putting a stop to depredations of American fishing tugs in Canadian waters. The Morrill will cruise Lake Erie for several days, going as far east as Dunkirk. Collector Leach has a license to investigate the cargo of any fishing boat he comes upon, and any fishermen found guilty of violating the Customs law by failure to enter his catch in Canadian waters will be arrested, his cargo and vessel seized, and proceedings of confiscation instituted by the collector. This puts the poachers between two fires, with both Governments being arrayed against them. It is believed that the latest turn of affairs will largely put a stop to the wholesale taking of fish in Canadian waters by American fishermen.

TRANSPORTATION MATTERS

Free Press: Mr. J. H. Ashdown, on being asked yesterday for an account of the trip of the transportation commission, through the west, kindly made a few observations on the facts of chief interest. He said that when the commission went east earlier in the season, it was arranged that they should take a trip west to the Pacific coast about the beginning of September, the time that would be most suitable to allow the chairman to see the crops as they had matured, and the prospects of the country.

The commission held sessions at Regina, Edmonton, Calgary, Vancouver and New Westminster, coming back by way of Crow's Nest, and intended to hold a session at Nelson; but the people there hardly understanding the scope of the commission did not think they had anything to offer until it was too late. They are, however, to send a memorial down. The crops in the stook or stack were an inspiration, and the chairman of the commission was very enthusiastic in regard to the prospects.

The people of Calgary seemed to be anxious to find a market for their soft wheat through Vancouver to the markets of the orient. The Vancouver people also seemed to be looking forward to the handling of that trade.

Vancouver is improving greatly, and is already beginning to feel the necessity of further facilities for its growing trade. The natural consequence of the starting of the place, however, was seen in the fact that the C. P. R. Co. controlled the greater portion of the deep water front, and as a result, Mr. Hill is expected to cross the inlet at the Narrows and make his terminus at North Vancouver. The people there are very much pleased at the Great Northern's coming in and quite a start seems to have been made in railroad matters in consequence. The commission had two sittings at Vancouver, and the views of its people were ably and persistently presented.

Victoria had a very intelligent memorial to place before the commission and went very thoroughly into their desire, pointing out the fact that Vancouver Island was practically of the same size as Nova Scotia, and almost unparalleled in the wealth of its timber as well as its mining deposits. It also has many fine harbors, and altogether they seem to look for a great future to that portion of the Dominion.

Mr. Ashdown thought it rather strange that the commission heard comparatively little of the Hudson Bay route. Though they had some information given them they had been hoping to get more. The very prosperity of the country, he observed, seemed to have obscured that road to an extent for the time at least in the minds of the people.

The commission has now covered the country pretty thoroughly; and it will now be for the commissioners to consider the wants of the various sections and decide as to what it is reasonable to recommend to the government.

AN OUTSIDER STUMPING ALBERTA

Last Monday evening, October 8, W. F. Cockshutt, Conservative M. P. for Brantford, in the Dominion Parliament, spoke at High River on behalf of the C. P. R. leader. He was good enough to advise the electors to become enraged because the Western school system has been preserved. He would have them excite themselves, in the Conservative interest, because Alberta is to get a handsome and perpetual income, paid half yearly in hard cash, for the lands, instead of suffering a dead annual loss, as the Ottawa Government does, by administering them.

The interest of Mr. Cockshutt in the Provincial elections is obvious. He is a manufacturer of agricultural implements. It only he could assist the anti-Liberals into power here, what fine apparent evidence that would be that Alberta farmers long to be taxed for the benefit of Cockshutt, on their harvesters, sleighs, discs, harness, wagons, and every other article of the kind.

It may seem very proper to Mr. Cockshutt that he should respond, on his own account, to the machine demand for assistance in stumping. His stumping tour is noticeable, not because he is a person of any real influence or consequence, not merely to remark that his introduction by the anti-Liberal machine evinces a certain despair. Mr. Bennett is responsible for bringing eastern sponsors in to the Alberta campaign, as Mr. Haultain in Saskatchewan had previously brought in the notorious Lockie Wilson.

THE FARM WILL SUCCEED THE RANCH

Toronto Star: "There is something exhilarating in the Western air," said Mr. W. C. Matthews, manager of the Canadian branch of R. G. Dun and Co.'s commercial agency, who has just returned from a business trip through the great west from Winnipeg to Edmonton. "And as a result, there is a tendency for the merchants to carry a little too much sail for their ballast. Everyone seems to be more or less interested in land speculation, and consequently, in the past many wholesale firms in the east have had to wait for their money. This year, however, the crops have been very good, and there is a tendency towards prompter payment and collection. The banks are assisting in this, by refusing to lend money on any real estate investments, confining their operations to legitimate business transactions exclusively."

"Is the country well supplied with banks?" was asked.
"Yes," answered Mr. Matthews. "Every little town which has any prospect at all has its bank. You would be surprised to see what little villages are blessed with banks. The bankers, filled with the optimism characteristic of almost everybody in the West, have gone into these hamlets to hold the place till the town grows. They do a surprising business in purely saving accounts. The Canadian banking system, with its free and uniform circulation of bank notes and silver, works splendidly in the building up of a new country."

"What was the most striking thing you noticed on your trip?" asked the reporter.
"That is a difficult question to answer," was the reply. "Perhaps the experiment that has been made in the growing of fall wheat in Alberta. Up to a year or so ago the country around Calgary was thought to be good only for ranching, but some Americans from Kansas have demonstrated that it is one of the best areas on the face of the globe for fall wheat. I saw samples of a splendid grain, called 'Turkey Red,' which went 32 bushels to the acre, and heard of such things in other places. In three or four years all the ranches will be broken up into farms for raising fall wheat. General farming will take the place of ranching, and every farmer will raise his own cattle for the market. Calgary is gaining greatly by this movement."

Mr. Matthews sees a rosy future for Alberta. "I believe it will be one of the greatest Provinces in the Dominion. There are a great many American settlers coming in, and they are the best class of settlers that we are getting. One bank manager of Calgary, told me that he would rather have one American with \$10 in his pocket come to town than ten Englishmen with \$1,000 each. The Yankee goes right to work to make that \$10 produce another \$10 and in a short time he does it, and keeps on adding to his stock of wealth like the faithful stewards in the parable. The Englishmen, however, have spent all their money before they learn the ways of the country, and how to become makers, as well as spenders, of money."

WINNIPEG MARKETS

[From the Commercial]

In the Winnipeg market, Manitoba wheat has been active and lower, and prices have declined 2 to 3c per bushel on the week except for hard which is only 1 1/2c lower. Deliveries by farmers at country points are about a million bushels daily and shipments to terminal elevators fully half that quantity daily. The pressure of so much wheat on the market at once depresses prices, however, and dealers have to consider the probability of early blockades, and elevators filled with wheat, waiting for cars to move it. Today's prices are—1 hard, 77c; 1 northern, 75 3/4c; 2 northern, 74 1/2c; 3 northern, 72 1/2c; spot or past Winnipeg and on the option market, futures closed, October, 75c; November 74 1/2c; December, 73 3/4c; and May 78 1/2c. All prices are in store Fort William and Port Arthur.

Oats are moving slowly, out of farmers' hands. The market for oats is firm, but demand is not urgent. The quality of the new crop is high, car inspection being mostly No. 1 white. Prices are: No. 1 white, 30 1/2c; No. 2 white, 29 1/2c; in store Fort William or Port Arthur. Barley is in good demand at 36c for No. 3 and 35c for No. 2 in store and Fort William and Port Arthur. Flax is also in good demand and firm. The movement is on a small scale yet, and prices are 97c, No. 1, northwestern; 95c, No. 1, Manitoba, and 91c rejected. In store Fort William and Port Arthur.

STURGEON NOTES

"Thrashing but scarce of help" is the news heard in many places now. "Grain is turning out better than we expected," is also frequently heard. Many farmers are short of granary room. Mr. Webber's large granary is threatening to burst, and is now standing amid a paradise of props. Geo. Long's wheat, though it was slightly damaged with hail, and lay so flat that it could not all be saved, yielded fifty bushels to the acre.

The neighborhood was saddened on Saturday to hear of the death of David Harold. He was well and favorably known here, and his people have the sincere sympathy of their neighbors.

Chas. Carson is cutting some fine oats, which in spite of frost is good both in yield and sample.

AN ARMY OF RAILWAY BUILDERS

Toronto, Oct. 9.—It was stated in Grand Trunk circles Saturday that the Grand Trunk Pacific would require an army of 18,000 men in construction work. Agents of the company are engaged in picking up laborers all over the Dominion, and it is expected most of them will be in the northwest within the next two weeks.

Ottawa, Oct. 9.—A report which seems to have started at Detroit and is going the rounds of the Canadian newspapers to the effect that Vancouver will be the headquarters of the Grand Trunk Pacific on the Pacific coast, is denied officially here. There can be no question that one of the northern ports on the Pacific will be chosen for the headquarters. There are various cogent reasons for this. In the first place, the main line will run direct to a northern port; secondly, some of the northern ports have natural harbors of immense area and convenience; thirdly, they are nearer to China and Japan than the southern ports, whether Vancouver, Victoria, Portland or San Francisco; in fact, vessels sailing from the southern ports to China have to go north to the great circle before starting across the Pacific ocean. No doubt, in time to come, the Grand Trunk Pacific will build branches to Vancouver and elsewhere in the south; but that is another question.

SOME MEN ARE RICH

In Edmonton today because they had foresight enough two or three years ago to buy property which, as the city grew, advanced rapidly in value. Some of them were laughed at—people called them fools—but two short years has abundantly proved the correctness of their judgment, and they are reaping the reward of their faith in the city.

The growth of the city during the past two or three years has been great, but, compared with the growth of the next two or three years it will be but as the dawn of day compared with the splendor of the noon-day sun.

You have the opportunity now to do as some few did in the past.

The Groat Estate

is now on the market at prices which will look small—very small, indeed—in the very near future. The city is growing westward rapidly and ere long this estate will be the choice residential part. No part of this estate is more than two miles from the very centre of Edmonton today—in five years it will be in the very heart of the city.

There are 500 lots—50 x 150 ft.—to be sold on easy terms— one-third cash, and the balance in six and twelve months, without interest. There will be no taxes to pay for over a year.

History Repeats Itself

You can buy from two to ten lots for the same money which it will take to purchase one in the present settled part of the city. Those who sow a few dollars now will reap a rich harvest in the not-far-distant future. Don't miss the chance now—TODAY—and have to say in a year: "What a fool I was that I didn't purchase a year ago." Somebody is going to make money on this estate—why not have a share of it?

For Family Colds

A reliable cough and cold cure should be always in the house ready for use the moment the first symptoms appear.

It is always easier, cheaper and better to check a cold in the very beginning.

It is safer, too.

Shiloh's Consumption Cure, the Lung Tonic, has been tested for thirty-three years, and tens of thousands of homes in Canada and the United States to-day are never without it.

A dealer writes: "Shiloh's Consumption Cure is without doubt the best remedy for Coughs and Colds on the market. One week, my customers will try no other—L. Elder, Niagara Falls, Ont."

If it were anything but the best would this be so? Try it in your own family.

If it does not cure, you get back all it cost you. We take all the chances. Neither you nor your dealer can lose. Isn't that fair? 25c. is the price. All dealers in medicine sell.

—The members of the Edmonton Choral Society are requested to meet in the Assembly Hall of Alberta College on Tuesday evening, October 17, at 8 o'clock. The music to be sung this season has arrived and it is necessary that all members be present at the first practice. The conductor would be glad to see any singers who may desire to become members.

—Raymond Chronicle: For the time being the interest of Raymondites has been taken away from the grain fields and is eagerly turned to the beet stands, the word having been sent out to begin digging on Monday. On every side the beet plots are running, and the topping knives are busy, these principally in the hands of the several hundred Indians temporarily dwelling here. Up-to-date there have been in the neighborhood of 700 tons of the sugar roots dumped into the sheds at the factory, but big delivery has not fairly started as yet. The officials at the factory do not care to start definitely when the machinery will be put into motion, this depending altogether when the beet on hand will justify it. It is highly likely that the run will commence until next week.

HAULTAIN WANTED TO COME TO ALBERTA

Speaking at Regina on Monday evening, Hon. J. A. Calder dealt with practical working out of the present school law and clearly showed not only that Mr. Haultain himself enforced and supported it, but would not alter it. In the course of his speech Mr. Calder referred to certain press statements made recently denying that Mr. Haultain had endeavored to form a coalition government in Alberta and failed before he decided to locate in Saskatchewan. Mr. Calder repeated his former statement that Haultain did go to Alberta and directly or indirectly approached prominent Liberals there with a view to forming a coalition government, and added Mr. Calder, "until Mr. Haultain himself denies this statement, I will refuse to accept any contradiction from elsewhere."

The club's headquarters will be in the school room at the church where a reading room will be equipped and the young men made to feel themselves at home in the evenings.

RAILWAY NOTES

Reports are current to the effect that the name of W. MacKenzie, president of the Canadian Northern Railway, will be submitted to the King for the honor of knighthood, in the birthday list in November.

The following orders have been issued by the railway commissioners: Approving plans of a bridge across the North Saskatchewan River at Fort Saskatchewan, Alta., for the Canadian Northern Railway. Sanctioning a deviation from the location previously approved for the Wetaskiwin, Alta., branch of the Calgary and Edmonton Railway, between mileage 96 and mileage 100.

S. N. Parent, Chairman of the Transcontinental Railway Commission, has resigned his seat in the Quebec Legislature, and his position as Mayor of Quebec city. He desired to retire from the directorate of the Quebec Bridge and Ry. Co., but the shareholders re-elected him, being advised that there was no objection to his holding the two positions. He was afterwards re-elected president of the company.

The Canadian Northern Ry. has recently received the following rolling stock: 150 box cars, 60,000 lbs. capacity from Rhodes, Curry & Co., Amherst, N.S., 100 box cars, 60,000 lbs. capacity, from the Crossen Car Manufacturing Co., Cobourg, Ont., and ten first-class day coaches from the United States, and has placed an order with Rhodes, Curry & Co., Amherst, N.S., for 100 box cars, 60,000 lbs. capacity, for immediate delivery.

The first twenty-five miles of the branch, eastward from Wetaskiwin, Alta., has been completed and passed by the Government Inspector. The second twenty-five miles was expected to be completed and ready for operation September 30. A contract has been let to J. D. McArthur for grading a further 50 miles easterly. It is intended to carry the line easterly to a junction with the Manitoba and North-Western Railway, which now runs to Shocho, Sask. The branch will cross the Qu'Appelle, Long Lake and Saskatchewan Railway, at Saskatoon, Sask., and J. D. McArthur has a contract for grading fifty miles westerly from this point, to meet the fifty miles he is grading easterly.—Railway and Shipping
